160 ACRES OF GOOD SOIL
100 acres alfalfa, 40 acres of corn, 15 acres milo maize; 2 sets of buildings, one on each end. 2000 worth of soft water; 1½ mile from good store, post office, blacksmith shop and school. Owing to failing health the owner says sell. Will sell with place, if desired, 200 tons of hay in stack, new mower and hay rack, new lister and 8 work horses with harness. The 3 farms we advertised last week as bargains we sold. To our judgment this is a 20 per cent better bargain. Come in and investigate. You cattlemen who have been hollering for feed and curing the valley because you could not get it, take notice or hereafter keep in the rear.

OLD FACTS

--a Blizzard

ENSILAGE CUTTER

will help fight the war in THE CORN FIELD

Save 100% of your silage crop. You can do it with a BLIZZARD Ensilage Cutter and keep green fields on tap through the winter. Your silage should be cut when it is ready to be of 100% value. But silage that loses nutritive value in the field because the custom cutter is late will not put as much meat on your stock. The only way to make sure of having 100% silage and your silo filled from bottom to top, is to cut it yourself with a BLIZZARD Ensilage Cutter. The cutter that is easy to run and simple. With knives that are easily removed for sharpening and easily replaced. Cuts the silage even which packs better, keeps better, making better feed. Cutter knives and elevating fans mounted on strongly reinforced fly-wheel. The BLIZZARD is light running because of right principle. Built by a company who have manufactured cutters for 42 years. There is a big difference in ensilage cutters. In the BLIZZARD you buy a certainty, not an experiment. Eight sizes to choose from. Write for our catalog telling all about the BLIZZARDS.
